

SPINNING TOPS
Rotational Drawing
Periphery and centre
2d and 3d

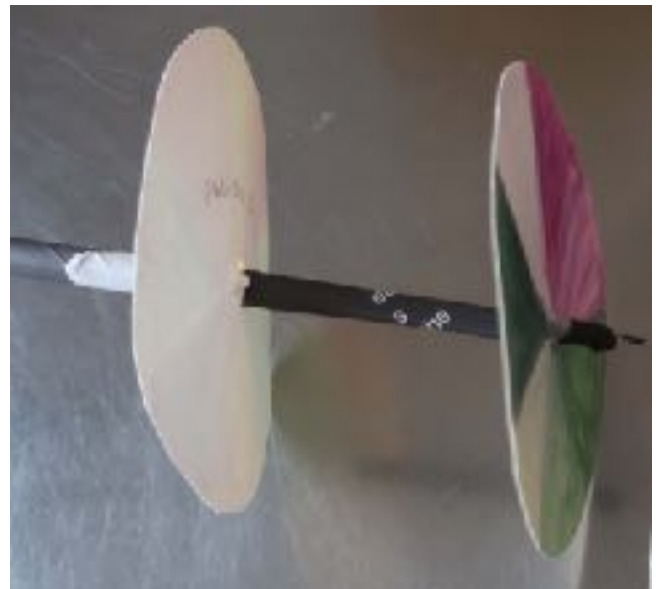

You will Need:

- Card, cardboard, packaging. or/and thin plastic round lids
- Template - something circle shaped
- Pencils, pens, or collage materials - up to you
- Optional sticky Tape
- Optional cocktail sticks, chop sticks, paper straws

How to:

1. Make rotational Drawing: a circular moving drawing either free hand or draw around a circle shaped object on card/cardboard
2. Cut it out
3. Decorate, Paint, collage your circle.
4. Choose your axis. (pencils are good to start with)
5. Make a hole through the centre of your circle for your axis

Extensions:

Left:

Plastic lid, Acetate and cocktail stick

Right:

Longer axis made with pencil inside a diy paper straw.
